Clinical Endocrinology (1996) 44, 750–753

# Subject index to Volume 44

Acromegaly
  hexarelin and PRL secretion 67
  resection of spinal canal metastases (Case report) 597
Adrenal incidentaloma
  21-hydroxylase deficiency after surgery (Case report) 111
  scintigraphy 587
Adrenalectomy
  endoscopic (Commentary) 349
AIDS
  wasting and the IGF system 501
Androgens
  gonadal effect on adrenal (Letter) 490
AVP
  and water balance in polydipsic schizophrenics 31

Bauman variant in Kallman's syndrome 103
Bone
  transdermal $E_2$ in post-menopausals 293, (Commentary) 297
  ultrasound measurement (Review) 363
  osteoporosis (Endocrine investigation) 371
  vitamin D deficiency and hyperparathyroidism 375
  markers and growth in children 385
  markers ELISA in hypothyroidism 447
  metabolism in women 563
  loss in post-menopausals with hyperparathyroidism 697
Burns
  IGF sub-unit 525

Cardioversion
  DC, and h-p-a 163
$\beta$-Cell
  and glucose and lipid oxidation in Graves' disease 59
Children
  cortisol circadian rhythm 157
  GH replacement and GHD in adults 311, (Commentary) 317
  GH secretion 327
  bone markers as growth predictors 385
  virilization in infancy (Case report) 477
  IGF and IGFBP in precocious puberty 515
Circadian rhythm
  cortisol in infancy 157
Clonidine
  GHRH and GH in diabetes 547
Cortisol
  circadian rhythm in infancy 157
CRH
  placental 419
Cushing's carcinoma
  clinical and genetic changes (Letters) 125
Cushing's disease/syndrome
  transsphenoidal surgery assessment (Review) 1
  hypergastrinaemia 335
  ACTH independent in siblings (Case report) 483
  dexamethasone and lysine-vasopressin test 703
  glycaemic control in obese diabetics 717
  virilization and ovarian tumour (Case report) 723

Dexfenfluramine
  and GH response in obese women 541
Diabetes
  mutation in coding for neurophysin-II 45
  IGF subunit 525
  GH response to GHRH and clonidine 547
  mellitus and HRT (Review) 615
  GHBP and immunoreactivity and insulinopenia 673
  glycaemic control in obese Cushing's syndrome 717
Down's syndrome
  screening (Commentary) 15, 17

ECT
  and h-p-a 163
Elderly
  vitamin D deficiency, fractures and secondary hyperparathyroidism in a nursing home 375
$\beta$-Endorphin
  effect on hypoglycaemic levels of h-p-a hormones 7
Ethanol
  for thyroid cyst (Letter) 126

Follicle development
  $E_2$, AD and P 191
FSH
  isoforms 181
Genetics
  mutation in coding for neurophysin-II and ADN diabetes 45
  HLA allele and Graves' disease 73
  glycogen synthetase gene in PCOS 85
  of Cushing's carcinoma (Letters) 125
  MEN2A 207
  pentagastrin test in MEN2A 213, (Commentary) 221
  kallikrein gene expression in pituitary 223

© 1996 Blackwell Science Ltd

somatic *RET* mutations in medullary thyroid carcinoma 249
thyroid peroxidase gene in Pendred's syndrome 441
virilization in infancy (Case report) 477
ACTH independent Cushing's syndrome (Case report) 483
TSH receptor (Clinical Molecular Endocrinology) 621
GH
neurotransmitters and thyroxine 319, (Commentary) 325
secretion in children 327
and growth in Turner's syndrome 665
and growth in IUGR 679
biochemical effects in rickets 687
GHD
and hypogonadism in MS (Case report) 117
in adults after GH in childhood 311, (Commentary) 317
estimation of body fat 395
and quality of life 403, 489 (Letter)
plasma and extracellular volume and GH 533
GHRH
clonidine and GH in diabetes 547
hexarelin and GH response 555
GnSAF
effect of FSH or hCG in luteal phase 169, (Commentary) 177
Gonadotrophin
isoforms, effect of progestogen in post-menopausals 651
Granulosa cells
activity in PCO 571
Graves' disease
$\beta$-cell function and glucose and lipid oxidation 59
HLA allele 73
methimazole and propylthiouracil (Letter) 243

Hepatitis
autoimmune thyroiditis and IFN-$\alpha$ therapy 635
Hexarelin
and PRL secretion in acromegaly and hyperprolactinaemia 67
GHRH and GH response 555
HIV
thyroid function and nutrition 53
H-p-a axis
short ACTH and insulin stress tests (Audit in endocrinology) 141, (Commentary) 147, 151, 473
ECT, and DC cardioversion 163
in pregnancy 419
HRT
and diabetes mellitus (Review) 615
II$\beta$-Hydroxysteroid dehydrogenase
(Clinical Molecular Endocrinology) 493
Hypercholesterolaemia
effect of thyroid substitution in hypothyroidism 643
Hypergastrinaemia
in Cushing's syndrome 335
Hyperparathyroidism
and vitamin D deficiency 375
and bone loss in post-menopausals 697
Hyperprolactinaemia
hexarelin and PRL secretion 67
Hypertension
operation (Commentary) 611
Hyperthyroidism
$\beta$-cell and glucose and lipid oxidation 59
Hypoadrenalism
failure of short ACTH test (Case report) 137
Hypoglycaemia
(Endocrine investigation) 133
non-islet cell tumour, octreotide imaging (Case report) 727
Hypothyroidism
(Endocrine investigation) 129
bone markers ELISA 447
thyroid substitution and hypercholesterolaemia 643

Idiopathic hypogonadotrophic hypogonadism
Bauman variant of Kellman's syndrome 103
IFN-$\alpha$
in autoimmune thyroiditis and hepatitis 635
IGF
and IGFBP after abdominal surgery 91
and IGFBP in boys in precocious puberty 515
subunit in IDDM and burns 525
IGFBP
and IGF after abdominal surgery 91
and IGF in boys in precocious puberty 515
IL-6
and thyroid hormones in non-thyroidal illness 199
Incidentaloma
21-hydroxylase deficiency after surgery (Case report) 111
scintigraphy 587
Insulin stress test
and short ACTH for h-p-a (Audit in endocrinology) 141, (Commentary) 147, 151, 473
Intrauterine growth retardation
AME due to 11$\beta$-HSD deficiency (Case report) 353
GH and growth 679

Kallmann's syndrome
Bauman variant 103

Leuprolide
and pituitary apoplexy in carcinoma of prostate (Case report) 121
Liver transplant
in men and endocrine status 461

Macroprolactinomas
IRMA for PRL 305
Medroxyprogesterone acetate
and BMD in post-menopausals 293, (Commentary) 297
Medullary thyroid carcinoma
*RET* somatic mutations 249
Men
GH effect on SHBG and testosterone in obesity 23
liver transplants and endocrine statue 461
IGF-I, IGFBP-1, testosterone and SHBG levels 659
MEN
2A, genetics 207
pentagastrin test 213, (Commentary) 221
Methimazole
and Graves' disease (Letter) 243
Multiple sclerosis
GHD and hypogonadism (Case report) 117

Neurotransmitters
GH treatment and thyroxine 319, (Commentary) 325
dexfenfluramine and GH response in obese women 541
Non-thyroidal illness
IL-6 and thyroid hormones 199
Nutrition
and thyroid function in HIV 53

Obesity
effect of GH on SHBG and testosterone in men 23
dexfenfluramine and GH response in women 541
diabetics, glycaemic control in Cushing's syndrome 717
Octreotide
imaging in non-islet cell tumour hypoglycaemia (Case report) 727
Oestradiol
transdermal and bone loss in post-menopausals 79
Oophorectomy
and HR effect on neurohypophyseal hormones 39
Osteoporosis
(Endocrine investigation) 371

Ovarian tumours
and inhibin immunoreactivity 413
virilization and Cushing's syndrome (Case report) 723

PCOS
glycogen synthetase gene 85
in post-menopausals 269
dyslipidaemia and insulin resistance 277
granulosa cell activity 571
Pendred's syndrome
thyroid peroxidase gene 441
Phaeochromocytoma
cytometric analysis 233, (Commentary) 239
adrenal and hyperaldosterone (Case report) 603
Pituitary
kallikrein gene expression 223
enlargement (Endocrine investigation) 299
adenomas, structure of TRH receptor (Rapid communication) 341
GnRH test 581
Prolactinoma
hypophysectomy after dopaminie agonist 711
Propylthiouracil
and Graves' disease (Letter) 243
Psychology/psychiatry
water balance in polydipsic schizophrenics 31
quality of life in GHD adults 403, (Letter) 489

Renin–angiotension system
in pregnancy induced hypertension 429
Rickets
biochemical effects of GH in familial hypophosphataemic 687

Schizophrenia
oropharyngeal regulation of water balance in polydipsia 31
Short ACTH test
failure in hypoadrenalism (Case report) 137
and insulin stress test for h-p-a (Audit in endocrinology) 141, (Commentary) 147, 151, 473
Steroids
in intrauterine fluids in pregnancy 435
Surgery
transsphenoidal for Cushing's disease (Review) 1
IGF and IGFBP after abdominal 91
21-hydroxylase deficiency after adrenal incidentaloma (Case report) 111
endoscopic adrenalectomy (Commentary) 349

resection of spinal canal metastases in acromegaly (Case report) 597
for prolactinoma afer dopamine agonist 711

Thyroid
function, HIV and nutrition 53
cyst, percutaneous alcohol (Letter) 126
nodule, solitary (Endocrine investigation) 245
papillary carcinoma and TSH-R in RNA heterogeneity 259
autoimmune disorders, hepatitis and IFN-α therapy 635
Thyrotoxicosis
and fuel metabolism 453
Thyrotrophin-releasing hormone receptor
structure in pituitary adenoma (Rapid communication)
Transferrin receptors
in gonadotrophinomas 467
TSH receptor
(Clinical Molecular Endocrinology) 621
Turner's syndrome
GH and growth 665

Ultrasound
in bone (Review) 363

Vitamin D
deficiency and hyperparathyroidism 375

Water balance
oropharyngeal regulation in polydipsic schizophrenics 31

Women
effect of oophorectomy and HR on neurohypophyseal hormones 39
transdermal $E_2$ and bone loss 79
effect of FSH and hCG on GnSAF in luteal phase 169, (Commentary) 177
FSH isoforms 181
follicle development 191
PCO in post-menopausal 269
dyslipidaemia and insulin resistance in PCOS 277
GH, IGF-I and GHBP levels 285
medroxyprogesterone acetate and BMD in post-menopausals 293, (Commentary) 297
inhibin immunoreactivity and ovarian tumours 413
h-p-a in pregnancy 419
renin–angiotensin system in pregnancy induced hypertension 429
steroids in intrauterine fluids in pregnancy 435
dexfenfluramine and GH response in obesity 541
bone metabolism 563
granulosa cell activity in PCOS 571
effect of progestogen on gonadotrophin isoforms 651
bone loss in hyperparathyroid post-menopausals 697
ovarian tumour, virilization, Cushing's syndrome (Case report) 723
